

IN THE CLAIMS:

CLEAN CLAIMS

31. (Twice Amended) Apparel to be worn by a person, comprising:

a panel formed of a fabric layer and an integral display layer attached to said fabric layer and formed of a light emitting polymer material suitable to generate electronic images responsive to electrical signals, said panel having fabric-like characteristics; and

a control member generating said electrical signals for said display layer.

49. (Twice Amended) Apparel for a wearer comprising:

a clothing article constructed and arranged to be worn on the body of said wearer, said clothing article including a panel with a fabric layer;

an electronic display layer incorporated into said fabric layer, said panel including said electronic display layer having fabric-like characteristics and being made of a light emitting polymer, said electronic display layer being arranged and constructed to generate images in response to electrical signals; and

a control member coupled to said electronic display layer and arranged to generate said signals.

60. (Twice Amended) Apparel for a wearer comprising:

a clothing article constructed and arranged to be worn on the body of said wearer, said clothing article including an integral panel forming an electronic display ,

13
conc.
said panel having fabric-like characteristics and being made of a light emitting polymer;

and

a control member coupled to said electronic display and arranged to generate signals corresponding to images shown on said electronic display.

62. (Twice Amended) Apparatus for playing a war game comprising:

14
a clothing article constructed to be worn by a participant in said war game;

a flexible display formed on said clothing article of a light emitting polymer, said flexible display having fabric-like characteristics to conform to the body of the participant like a fabric and arranged to display selectively one of a plurality of images;

a controller generating signals for said display, said signals defining said images; and

a gun coupled to said controller, said gun generating a beam when activated by said participant.
